### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

#### **a) In the Title**

Before "Trench" insert --Method of Forming -- after "Body" insert -- Including a Plurality of Implantations with Different Energies--

### **Reasons for Allowances**

The following is an examiner's statement of reasons for allowance: the features applied to a trench MOSFET, in claim 2, lines 6-9, forming a plurality of implants of first conductivity type to form a body region each with the same dose but different energies; and in claim 9, lines 8-12, plurality of implantations to form a body region, each having a different energy and a maximum implant energy for the implantations to penetrate through the hard mask, cannot be found in the prior art of record. The prior art of record fails to teach, in combination, the process features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
